#### **Other News**

The BAJC annual report is being finalized and will be released shortly.

The ARC has announced modifications to the rules for the 2012 round. The main change that affects BAJC leverage opportunities through this scheme is that an Australian based company must be a participant. Investigators who intend to use the BAJC funds for ARC-LP applications need to acquaint their Australian based company partners with the contractual details, including IP arrangements, which are required for using Baosteel as a PI.

Please advise the BAJC management group early if you intend to apply for an ARC-LP which involves Baosteel funding.

There are some other significant changes in the ARC-LP rules also regarding details of amounts and duration that applicants need to familiarize themselves with these.

Planning for the BAJC annual conference to be held in Brisbane on December 13-14, 2012 is well underway.
