Re: Announcement of 2017 BAJC EOIs Assessment Outcome

To whom it may concern:

We have received 15 EOI submissions in total for BAJC projects to be commenced on 1st January 2018. All those 15 EOI proposals have been carefully assessed by Baosteel via a Project Selection Committee consisting of Baosteel Chief Research Engineers and Baosteel's representatives of the Technical Advisory Panel (TAP) of the Centre. Baosteel also considered the comments on the EOIs from some Australian TAP members. Baosteel has shortlisted 7 applications out of the 15 EOI proposals based on their assessments.

Both successful and unsuccessful EOIs' applicants will receive a notification letter from BAJC. We are now in a position to call for full proposals. The successful EOI applicants will be invited to submit full proposals. The submission of full proposal will be closed on Monday 10 July 2017. We will then organize the assessment of the full proposals. We will announce the outcome of the full proposals assessment by early September 2017.

Please do not hesitate to contact BAJC should you have any enquiry on the shortlisted EOIs or the EOIs assessment outcome.

Yours sincerely,

Professor Geoff Wang
Executive Director
